

4-LINE DECONTAMINATION SHELTER

PRODUCT OVERVIEW

4-Line Decontamination Shelter for effective decontamination of both ambulatory and non-ambulatory casualties within the same compact footprint.

FEATURES & BENEFITS

- Patented external articulating frame with corrosion resistant anodized aluminum. Design facilitates rapid deployment; shelter can operate with 30% of frame missing or broken.
- UV stable, fire retardant and chemical resistant fabric on interior. Provides durability; protects exterior frame from contaminants and expedites post-use clean up.
- Stores to 45" x 45" x 45". Space efficient for facilities with limited space.
- Separates into 4 decon lines. Enables patient privacy for male and female patients; flexibility to convert to both ambulatory and non-ambulatory.
- Interior Basin contains waste water within wash/rinse area of shelter.
- On/Off capable shower nozzles on interior fabric saturate patients with 360° of spray. Maintains system integrity and maximizes decon capability; nozzles can easily turn on or off for user's specific needs.
