

## FIRST RESPONSE SHELTER

### PRODUCT OVERVIEW

This shelter can be used for command/control, triage, or a warming shelter. It has a compact footprint in an extremely portable and light weight package.

### FEATURES & BENEFITS

- Pre-fabricated design insures state-of-the-art performance, reliability and speed of deployment.
- Exterior canopy configuration allows the frame to be on the inside and provide ample area from which to hang equipment.
- Corrosion resistant anodized patented aluminum frame with chemical resistant fabric provides for long life and reliability.
- Compact footprint and light weight insure easy two person deployment under any conditions.
- Full length screened side windows provide ample warm weather ventilation.
