

## S-FRAME SHELTER

### PRODUCT OVERVIEW

Large multi-purpose shelter provides for command/control, triage, warming, rest, sleep, and rehabilitation.

### FEATURES & BENEFITS

- Patented articulating frame with corrosion resistant anodized aluminum. Design facilitates rapid deployment; shelter can operate with 30% of frame missing or broken.
- Outer canopy secured to the frame. Water, chemical, flame, and fungus resistance to provide for long life.
- Inner fabric liner is affixed to the articulating frame and includes a permanently affixed plenum to the side of the liner. An HVAC port is provided in the fabric liner inside the lower end of the plenum to which an HVAC supply duct would be attached. The plenum directs the flow of the HVAC air up to the top of the shelter.
- Door at the middle of both of the shelter end walls. Side window openings with covers and screens for ample warm-weather ventilation.
- Snorkeled ports for connecting ducts from optional HVAC equipment for climate control. Snorkeled ports to provide entry for optional power cables for lighting and other optional equipment requiring electrical power.

### S-FRAME SHELTER SPECIFICATIONS

Part Number	SUR-SZA09-EY
Interior Fabric	White
Exterior Fabric	Grey
Interior Shelter Dimensions	21' L x 20' W x 10' H
Exterior Shelter Dimensions	23' L x 22' W x 12' H
Shelter Stored Cube	48" x 44" x 44"
Shelter/Ground Cloth/Push Poles Weight	486 lbs
Shipping Weight	615 lbs

### SHELTER INCLUDES

- (2) 5' Push Poles
- (1) Anchor Kit
- (1) Repair Kit
- (1) Transport Bag
- (1) Ground Cloth
